No application for any new alcoholic common victualler license or for the transfer of such a license shall be approved by the Board of Selectmen, acting as the Licensing Board, unless the Board determines that the licensed premises are accessible to the public. Factors to be considered by the Board shall include, without limitation, whether such premises have handicapped accessible ramps, toilets, and parking spaces which comply, at a minimum, with applicable requirements, and have appropriate signs which designate such parking spaces. Exceptions may be granted by the Board if the Inspector of Buildings determines that such access is architecturally impossible or economically unfeasible to meet the guidelines of the Architectural Access Board.
