

Specifications for Private Paved Road Sign

- Road will have a Street Sign visible from two directions.
- Sign shall be of prismatic reflective material with transparent blue material. Sign shall be 9” wide with 6” block lettering. *Note: “Prismatic reflective material” is high intensity reflective sheeting.*
- The sign shall be aluminum .080 gage.
- It is preferred that the sign say “Private Way” or abbreviated “PTV Way” after the street name.
- The sign may be double sided or single sided.
 - 1) A double sided sign is two identical signs back to back with the street’s name on it.
 - 2) A single sided sign is one sign with the name of the street printed on either side.
 - 3) Both types of signs must have the appropriate holes for mounting to a 2” x 2” square post. The resident is responsible for hardware to mount the double sided sign.
- The Town will provide a galvanized post and provide the initial installation of the sign. There after, the responsibility of sign and post is solely the residents of the road.
- The sign is purchased by the resident and shipped to the:
Wellfleet Department of Public Works
220 West Main Street
Wellfleet, MA 02667
For installation.
