

Marina Advisory Committee Minutes

October 7, 2020

Present: John, David, Martha, Joe and Will Sullivan

Absent: Frederick

Meeting was called to order at 7:07

Venue: Zoom meeting

Announcements, Open Session and Public Comments

None

Approval of Minutes

Deferred to next meeting

Harbormaster Report

Will stated that the dredge is working in the channel and is now by the L Pier. He reported that the marina operation will start winding down by October 12th.

Marina Concerns and Suggestions

Joe expressed his concern that the bumper strip on the fuel dock does not cover the entire length of the dock. Some of the nails used to mount it have come loose and can scratch boats. He suggested that additional strip be added and stainless screws be used to fasten the entire strip.

Joe also raised the issue of the Gillie Girl boat being allowed to park most of the day many days at the fuel dock and not just for unloading.

Dredging Update

Joe reported that the Army Corps of Engineers will soon be issuing the dredging permit for Area 1. The Dredging Task Force approved the GEI contract to facilitate the "piggyback" dredging of the Town North Anchorage and Access Channel. The GEI contract includes managing the bid process to select a contractor for that part of the Area 1 dredging project. This part could be dredged if the channel dredging is completed around the end of November.

New Business and Future Concerns

None

Next Meeting: November 4, 2020

Martha made a motion to adjourn and it was seconded by David.

Meeting adjourned at 7:27pm.

Minutes respectfully submitted by Joe Aberdale
