

Ned

WELLFLEET BIKE AND WALKWAYS : June 19 meeting Minutes

DRAFT

Members in attendance: Elspeth Hay, Ned Oliver, Emily Beebe. No one had a key , so the meeting started outside the building!

Public Comments- Barb Taylor raised concerns about how CCC Outer Cape Master Plan was developed. It was not based on bicycle accident data. The plan fails to delineate any adverse impacts from implementation, which calls into question the veracity of the report. There were other comments from Cahoon Hollow Road and Zoeth Smith Road residents expressing concern about the so- called "secondary route". The "Wellfleet Hills Homeowners Association" includes these residents, and they are concerned about the plan as it is viewed as "a plan for tourists to come to Cape Cod and ride."

There was discussion about the recent improvement project to route 6 in North Wellfleet and Truro by DOT, including painting, striping and rumble strips. The group decided to ask DOT to consider similar treatment for the rest of Route 6. **Motion to send DOT a letter by E. Beebe; second by E. Hay; Voted unanimously in favor.**

The Committee discussed the Outer Cape Bike and Pathway Plan, and that they have agenda to improve the safety for cyclists and pedestrians. The group agrees that the best scenario would be to extend the Rail Trail and get the pedestrians and cyclists off of route 6,

**There was a motion by E. Beebe, seconded by N. Oliver:** to send a letter to the board of selectmen to encourage/ support/ request a study of the "extended" Main Street intersection with Route 6, and to study how best to accommodate multi-modal traffic from the rail-road bed (Sun-Bird at Amsler's property) to the intersection. **Vote: Unanimously in favor.**

**The group discussed several areas in town where safety improvements should be made, these were framed as: priority projects.**

**Priority Projects**

- Sidewalk dead-ends west side of long pond road
- Where long pond road meets main street
- No sidewalk to COA building
- Sidewalks on main Street
- A comprehensive sidewalk project

**Route 6 HAWK light wish- list:**

- Briar Lane
- LeCount Hollow Road
- Designer Road
- Village lane
- Cove Road
