

Town Shellfish Crier
May 3, 2021

1. Shellfish Advisory Board Meeting, Wed., May 5 at 6:30 p.m.

Please let the Shellfish Department know if you would like to meet us at our office to tune in to the Zoom meeting. We are happy to host people in person to encourage community discussions about these important topics. Please come and make your voices heard.

AGENDA

1. Minutes meetings April 8 and April 26
2. Domicile regulations - Ryan Curley (review changes Selectboard member Curley is proposing; Selectboard did not vote yet)
3. Grant Application Process - Nancy Civetta (review changes Selectboard approved and Selectboard member Ryan Curley's proposed changes)
4. Grant extension inspection results and community conversation about aquaculture expansion - Nancy Civetta
5. Shellfish Propagation Plan - years 1-5 as part of Wellfleet's Watershed Permit for wastewater remediation - Nancy Civetta

There are documents for #2-5 posted [here](#) for your review.

This meeting will be held virtually via Zoom Video Conference, in accordance with the temporary suspension and enhancement of the Open Meeting Law requirements by Governor Baker. Instructions for a Zoom video conference meeting, which also allows phone dial-in, are given below. If you have technical difficulties joining a Zoom meeting please call 774-392-1457

2. Mass. DMF Oyster Harvest, Handling and Vibrio Control Training Virtual Meeting

When: May 6, 2021 06:00 PM

Topic: Oyster Harvest, Handling and Vibrio Control Training Virtual Meeting

Register in advance for this webinar:

https://us02web.zoom.us/webinar/register/WN_afaCwNs5TvOCKvtXles0dw

After registering, you will receive a confirmation email containing information about joining the webinar.

Vibrio season runs May 19 through Oct. 19, 2021. You can review the 2020 vibrio control plan [here](#). Short video clips on tagging, icing, vibrio logbooks, etc. can be found [here](#). The

state tells us that vibrio logbooks are on their way. We will have them in our trucks. For those who like to geek out on vibrio forecasting, visit [here](#).

3. Shellfish Department Propagation Updates

We will be participating in the contaminated quahog relay again this year and planting clams in Chipman's Cove for the fall (and the Indian Neck Recreational Only Area) next week. We will begin cultching on June 1. We have ordered oyster and clam seed. We will deploy hats in the Cove and on our grant. Buoys for the spat collecting area in Chipman's will be placed by June 15, this year. We have six AmeriCorps project days booked between this Friday and June 25.

Deputy Constable Drew Ryan, who has been with us for three years, will be back mid-month until the end of June to fulfill his prior contract. He has decided to move on in search of full-time, year-round employment, which we were not able to offer him. We are sad to lose him as he has been a valuable asset to our department. We will be looking to hire someone to take his place starting July 1. If you see him, please thank him for his excellent service to the Town.

Contact Nancy at nancy.civetta@wellfleet-ma.gov or 617-901-7193 with ideas on how the Shellfish Department can help or improve shellfishing, especially during the COVID-19 pandemic. Thank you!

Nancy Civetta
Shellfish Constable
